The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director Division of Water Room W264 402 West Washington Street Indianapolis, Indiana 46204

For a petition to be considered valid it must:

- 1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
- 2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
- 3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
- 4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water Room W264 402 West Washington Street Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

Application # : FW-24894

Stream : Ohio River

Applicant : Randy Sagar

403 Shore Acres

Jeffersonville, IN 47130-9469

Description : An existing carport will be removed and an attached garage with a second story

apartment will be constructed onto an existing residence. Details of the project are contained in information and plans received at the Division of Water on June

23, 2008.

Location : 403 Shore Acres Drive, along the right bank of the river at hte intersection of

Spring Street and Front Street

at Jeffersonville, Utica Township, Clark County

Clark Military Grant #7, Jeffersonville, IN-KY Quadrangle

Quad Code: 3808536

UTM Coordinates: Downstream 4243309 North, 617771 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312

Application # : FW-24897

Stream : Edgerton-carson Ditch

Applicant : Hanson Aggregates Midwest, Inc.

Bruce Rowley

7432 Lower Huntington Road Fort Wayne, IN 46809-9616

Description : An existing 72" by 24' long reinforced concrete pipe culvert will be extended 80' to

allow the existing drive over the stream to be widened. The proposed culvert extension will be the same diameter and slope as the existing culvert. No headwalls or end sections are proposed. Riprap will be placed around the exterior of the proposed extension. Details of the project are contained in information and plans received at the Division of Water on June 23, 2008 and

July 15, 2008.

Location : Approximately 650' downstream of the Dawkins Road (State Route 14) stream

crossing

near Edgerton, Jackson Township, Allen County

NW1/4, Section 9, T 30N, R 15E, Woodburn South, IN-OH Quadrangle

Quad Code: 4108417

UTM Coordinates: Downstream 4549466 North, 681778 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312

Application # : FW-24902

Stream : Ohio River

Applicant : City of Jeffersonville

Bob Manor

500 Quartermaster Court Jeffersonville, IN 47130-3671

Description : A concrete platform/walkway will be constructed along the right bank of the river.

Also five 12" anchoring spuds will be installed in the river to accommodate a stage barge. Details of the project are contained in information and plans

received at the Division of Water on June 25, 2008.

Location : The proposed site is along the Ohio River in Jeffersonville, IN. It is near the

intersection of Spring Street & Riverside Drive

near Jeffersonville, Jeffersonville Township, Clark County Clark Military Grant #1, Jeffersonville, IN-KY Quadrangle

Quad Code: 3808536

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312

IAC 10

Application # : FW-24904

Stream : Wildcat Creek

Applicant : Tom Scott

517 Shady Creek Drive Lafayette, IN 47905-8409

Description : Approximately 250' of Wildcat Creek's eroded south left streambank will be

stabilized with Class 2 riprap placed over geotextile fabric to protect the bank from further erosion. The riprap will be keyed into the streambed at its base and will conform to the existing bank at the project limits. It will have a maximum height of 4', a maximum streamward projection of 2' beyond the existing bank, and 2:1 sideslopes. Details of the project are contained in information and plans

received at the Division of Water on July 1, 2008.

Location : Along the southwesterly bank of Wildcat Creek, across the frontage of 517 Shady

Creek Drive (Lot 4, Wildcat Valley Estates Phase 1) near Lafayette, Fairfield Township, Tippecanoe County

NE1/4, NW1/4, Section 24, T 23N, R 4W, Lafayette East Quadrangle

Quad Code: 4008647

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312

Application # : FW-24907

Stream : West Fork White River

Applicant : Division of Fish & Wildlife

Gregg McCollam

402 West Washington Street

ICG South, Room 273

Indianapolis, IN 46204-2781

Description

: A 15' by 150' steel-reinforced concrete boat ramp will be constructed at a 45 degree angle over a portion of the existing ramp along the West Fork White River to provide improved access. The ramp will extend approximately 30' into the river. Approximately 900 tons of 9" to 12" riprap will be used to fill the old ramp channel and will be contoured to reshape the riverbank. Approximately 1700 tons of 9" to 12" revetment riprap, 300 tons of #2 crushed stone, and 450 tons of #53

crushed stone will be used for the ramp base and parking area repair.

Approximately 7% of this material will be placed below the ordinary high water mark. Of this amount, 300 tons of 9" to 12" revetment riprap will be added to the adjacent river banks for bank stabilization with 7% of this material also being placed below the ordinary high water mark. In addition, a 6' by 8' concrete loading platform will be built on the downstream side of the launch ramp along with a 5' by 20' sidewalk connecting to a 17' by 20' ADA concrete parking pad. Details of the project are contained in information and plans received at the

Division of Water on July 2, 2008.

Location

: 0.5 miles SE of Spencer, IN, on the West Fork of the White River located 1.15

miles east of Pottersville Rd (25) on River Road (325) near Spencer, Washington Township, Owen County

SW¼, NW¼, NE¼, Section 28, T 10N, R 3W, Gosport Quadrangle

Application # : FW-24931

Stream : Sugar Creek

Applicant : U.S. Aggregates Inc

Don Smith

5400 West 86th Street

Indianapolis, IN 46234-1502

Description : Approximately 300' of Sugar Creek's eroded east (left) streambank will be

stabilized with end dumped rubblized concrete placed over a geotextile fabric and augmented with live post plantings to protect the bank from further erosion. The locally-derived rubblized concrete will be placed along the streambed with the largest pieces compacted at the base and the remaining pieces conforming to the existing bank at the project limits. Live posts will be installed and tamped at right angles to the embankment. The stabilization will have a maximum height of 25', a

maximum streamward projection of 3' beyond the existing bank, and 1:1 sideslopes. Details of the project are contained in information received electronically at the Division of Water on July 28, 2008 and in plans and

information received at the Division of Water on

Location : Approximately 1,950' northeast (upstream) of the County Road 700 North (West

246th Street) bridge crossing to 2,250' (upstream) of same crossing

near Thorntown, Sugar Creek Township, Boone County

Section 27, R 4E, Colfax Quadrangle

Application # : LM-160

Lake : Lake Michigan

Applicant : Port of Indiana-Burns Harbor

John W Hughes, PE

6625 South Boundary Drive Portage, IN 46368-1280

Description

: Stone material will be placed as needed where scour holes have developed or where dockwall movement has occurred. The stone material will be quarried, clean material and will range from 6" to 18" in diameter. Depending on the size of the scour holes, the depth of the stone will vary from 6" to 5' and will be placed approximately 50' lakeward of the existing dockwalls. No stone material will be

placed above the elevation of the harbor bottom of 550.7',

IGLD 1985. In addition, existing sheet piling will be reinforced by installing additional sheet piling in the harbor bottom in front of the existing sheet piling. The new piling will extend down 25' below the existing piling. Details of the project are contained in information and plans received at the Division of Water

on July 22, 2008.

Location

: At Lake Michigan's Port of Indiana, West Harbor Arm, East Harbor Arm, and

Application # : PL-21090

Lake : Irish Lake

Applicant : Lyle D Kleckner

116 EMS B61 I Lane Warsaw, IN 46582-6687

Description : An approximate 10' by 27' area of an existing channel will be restored to its

original condition by removing a maximum of 1' of debris and sediment from the lakebed. The excavated material will be transported to an upland detention area where it will be dewatered before being transported to an offsite disposal area. Adequate detention time will be provided to allow suspended sediments to settle out of the decanted water before returning the water to the stream. In addition, an existing 8.5' by 20' boat ramp adjacent to the proposed dredging will be removed. Details of the project are contained in information and plans received

at the Division of Water on June 30, 2008.

Location : 116 EMS B61I Lane

near North Webster, Kosciusko County Section 28, North Webster Quadrangle

Application # : PL-21091

Lake : Big Long Lake

Applicant : Big Long Lake Association

Jim Williams

5398 South 980 East

Wolcottville, IN 46795-8720

Description : Four seperate areas will be dredged to restore the lakebed to original conditions.

Approximately 1500 cubic feet of accumulated muck and debris will be removed from the lakebed by dredging to a maximum depth of 3' below the lake's legal level. The excavated material will be transported to an upland containment area for dewatering and disposal. Details of the project are contained in information and plans received at the Division of Water on July 1, 2008 and July 11, 2008.

Location : Beginning at the East 500 South stream crossing and extending along the

northern shoreline approximately 2600' west, 390' south, and 1000' southeast as

well as 3 additional areas along the south and west shoreline. near South Milford, Milford Township, LaGrange County NW¼, Section 27, T 36N, R 11E, Stroh Quadrangle

Lake : Bass Lake

Applicant : LAWRENCE & MARGO BRUST

LAWRENCE & MARG BRUST 6004 South County Road 210

KNOX, IN 46534

Description : An existing 50' seawall will be refaced across a portion of the 50' frontage of the

applicant on Bass Lake to prevent deterioration. The refacing will consist of reinforced concrete which will be tied to the existing wall with 1/2" rerod. The refacing will have a maximum thickness of 12" and will be sloped on the lakeward side. A 24" wide concrete walkway will be constructed on top and landward of the lakeward face of the refaced wall. The walkway on top will be 4" thick. The corners wil be angled. Details of the project are contained in information received

electronically at the Division of Water on July 21, 2008 and in plans and

information received at the Division of Water on July 23, 2008.
